BLU-XO8

Azure BLU-XO8
+8 Relay Expansion Module
BLU-IO168 & BLU-O8 Compatible

The Azure BLU-XO8 is a plug-in expansion module that adds 8 more relay outputs to the BLU-IO168 or BLU-O8. The BLU-XO8 module is securely fastened to the top of the IO168 or O8 with plastic stand-offs and screws. When mounted, the XO8 sits flush with the sides of the baseboard.
